

## Franz health clinic update Jan 2010

Welcome to 2010, so far so good!! Long may it continue and fingers crossed we get our new clinic this year ... sooner rather than later!!

We've been asked to have dates in for a 'flu immunisation' clinic already, with the campaign due to kick off some time in Feb.

It has been penciled in that Franz will have a day on Wed 17<sup>th</sup> March with Fox the previous week on Wed 10<sup>th</sup> March. Could all employers have an idea of how many staff will be getting the 'jab' and let me know as early as possible for ordering purposes.

The tourists are keeping the clinic ticking over, but it is with great relief that there have been no major call outs of recent times!!

An ante-natal/coffee group has been commenced and is running the middle Wed of the month at the moment, for more info please contact the Franz Clinic.

As advertised, Dr London's clinic times have changed again to better accommodate the needs of South Westland residents; we hope this hasn't caused too much confusion.
